Good riposte in final argument as to Opposition's assumptions. Outstanding argument as to class-based assumptions and outside employment of teachers.

Prop 2:

OLIVIA: Well organized. Excellent response to POI on common core. Should have attached Opp's assumption of 180 day year more forcefully. Good tempo/meter. Missed argument as to teacher prep. time.

SEAN Opp 1: Slightly rushed start. Very good response to Points of Info. Good arguments as to family bonding time and teacher's need to have time to prepare. Assumption that school year remains 180 days not supported. Good argument that students use breaks to pursue outside interests. Good temperament.

OLIVER: Opp 2: Good argument on family bonding time. 180 day year assumptions not supported. Good arguments as to need for teacher prep time and need for schools to have time to repair schools. Eating was distracting, but was not scored/penalized.

REASON FOR DECISION:
This was a very close debate. Both sides used time well. Both sides had well-reasoned and compelling arguments. The proponents were slightly better organized and used POI's to better effect. Proponents presentation and demeanor was slightly calmer and more focused.

Prop 2: extend your points more. You don't want to drop any of your impacts, since you made the framework a question of net benefit.

Opp 1: time yourself so you know how much time left. Bring up your impacts in the last speech so I know how you win under the framework. Set up your final speech. Tell me how many voting issues there are, then go through them one by one.

Opp 2: Make sure you are extending your contentions. Your first contention was strong, but you completely dropped it, so I couldn't weigh it.

Using the above criteria, please offer compliments and/or suggestions for improvement to each debater:

Prop 1: For your rebuttal speech, choose contentions to talk about that you won on. For example, your team actually won on having more impacts thanks to your fourth contention. You just didn't tell me it was a voting issue.

Prop 2: Answer their arguements in your speech. If you can't think of any arguments, have your partner pass you notes of what to say.

Opp 1: You had time left over in your first speech that could have been used to explain how your contention cross-applies to their case. In your last speech, mention the fact that they dropped all of your arguements. Also, you didn't seem to understand their fourth contention. Don't be afraid to ask them to clarify.

Opp 2: Work on speaking. Take time to stop and think which will help your speech go more smoothly. Also, try to answer their contentions in order. It will help me flow the round better. Also mention the fact that they dropped all of the args. your partner made in her first speech.

REASON FOR DECISION: Prop gave reasons for the ballot and a criteria to consider that they defended properly

Terms:
- YRSS: system w/o summer break
-spread through yr

- Beneficial - what benefits student most
~~weighing mechanism~~ ~~fact based~~ what is best for kids ed

① created b/c AC was not invented
summer too hot
→ now useless
∅ reason

→ no point to system now → how is this relevant to the beneficial Question? → b/c the rule is pointless its ∅ beneficial

up - school is ∅ yr round

bills
neg-scores lives, ∅ people
~~fail~~ fallows real world opinions

Prop is best
- learning ↑
- less stress

2. Kids forget info over the summer
∅ learning reinforcement
→ undermines purpose of ed system
retention ↑

breaks through yr
- ∅ summer they forget immediately
school useless

① helps kids unwind from school stress
→ perform better
② difficult for teachers to change schedule more often
③ More breaks
10% of ppl miss school b/c of stress
don't focus
→ they to ~~get~~ stress throughout yr
caused by curriculum schedule
but true for singapore

- Stress will always be there → speeding it out use breaks for goals & stress mgmt
still get same amount of breaks, spread out

① hands on experience internship
can use summer to reinforce yr learnings
students need time to recover w/o breaks
② ∅ create more stress
③ need to keep kids in ed want more ppl in school
can't fund schools w/ out ppl lost ∅ want ppl to ∅ want to school due to ~~stress~~ sweden
save their lives, ∅ let them die for ∅ yr rd schedule
imagine ply/high stress

K-8 ∅ have only high school impacted

- kids ∅ stressed all yr & need breaks all yr
w/ SQUO the wait can be too much

∅ they have more opportunities to de stress
ex: Midterms
∅ time in SQUO

will decrease b/c they have time to relax

where does sweden stand.

1. How do we know they are stress related.
2. we prove we create less stress

3. Yr Round is better,
ex: Singapore - 1 ed in world
China -
system does work
US is falling behind
- need new standards

Virgin suicide
Japan } stress
S Korea
Finland - Shortage

cause by curriculum & ∅ yr round schedule
- Suicide is curriculum problem

→ getting salary same as no more teaching time. Teachers need a longer break. (7:00)

quality of life stays the same

→ economy, people going to STEM anyhow.

→ now is better & have an impact.

Please award each speaker points based on the following scale:

30 = Perfect **29** = Outstanding **28** = Very Good
27 = Good (but possibly not good enough to qualify for elimination rounds)
26-25 = Fair **24-20** = Poor **<20** = Reserved for rude or inappropriate behavior

Judging Criteria

- **Analysis:** How reasonably and effectively the debaters analyze the topic and the arguments offered during the debate
- **Evidence:** How appropriately and efficiently the debaters support arguments with evidence—which may include facts and references to authority as well as general knowledge
- **Argumentation:** How directly and effectively the debaters respond to the arguments made by the other side
- **Points of Information:** How relevant and effective were the questions and the answers
- **Delivery:** How well the debaters speak in an organized, communicative style that is pleasant and easily understandable
- **Courtesy:** How courteous and respectful the debaters were to opponents and judges

Using the above criteria, please offer compliments and/or suggestions for improvement to each debater:

Prop 1: Good job developing your case w/ lots of contentions/benefits. Good clear speaking throughout. Try to clarify length of "mini summer" breaks in 1st speech.

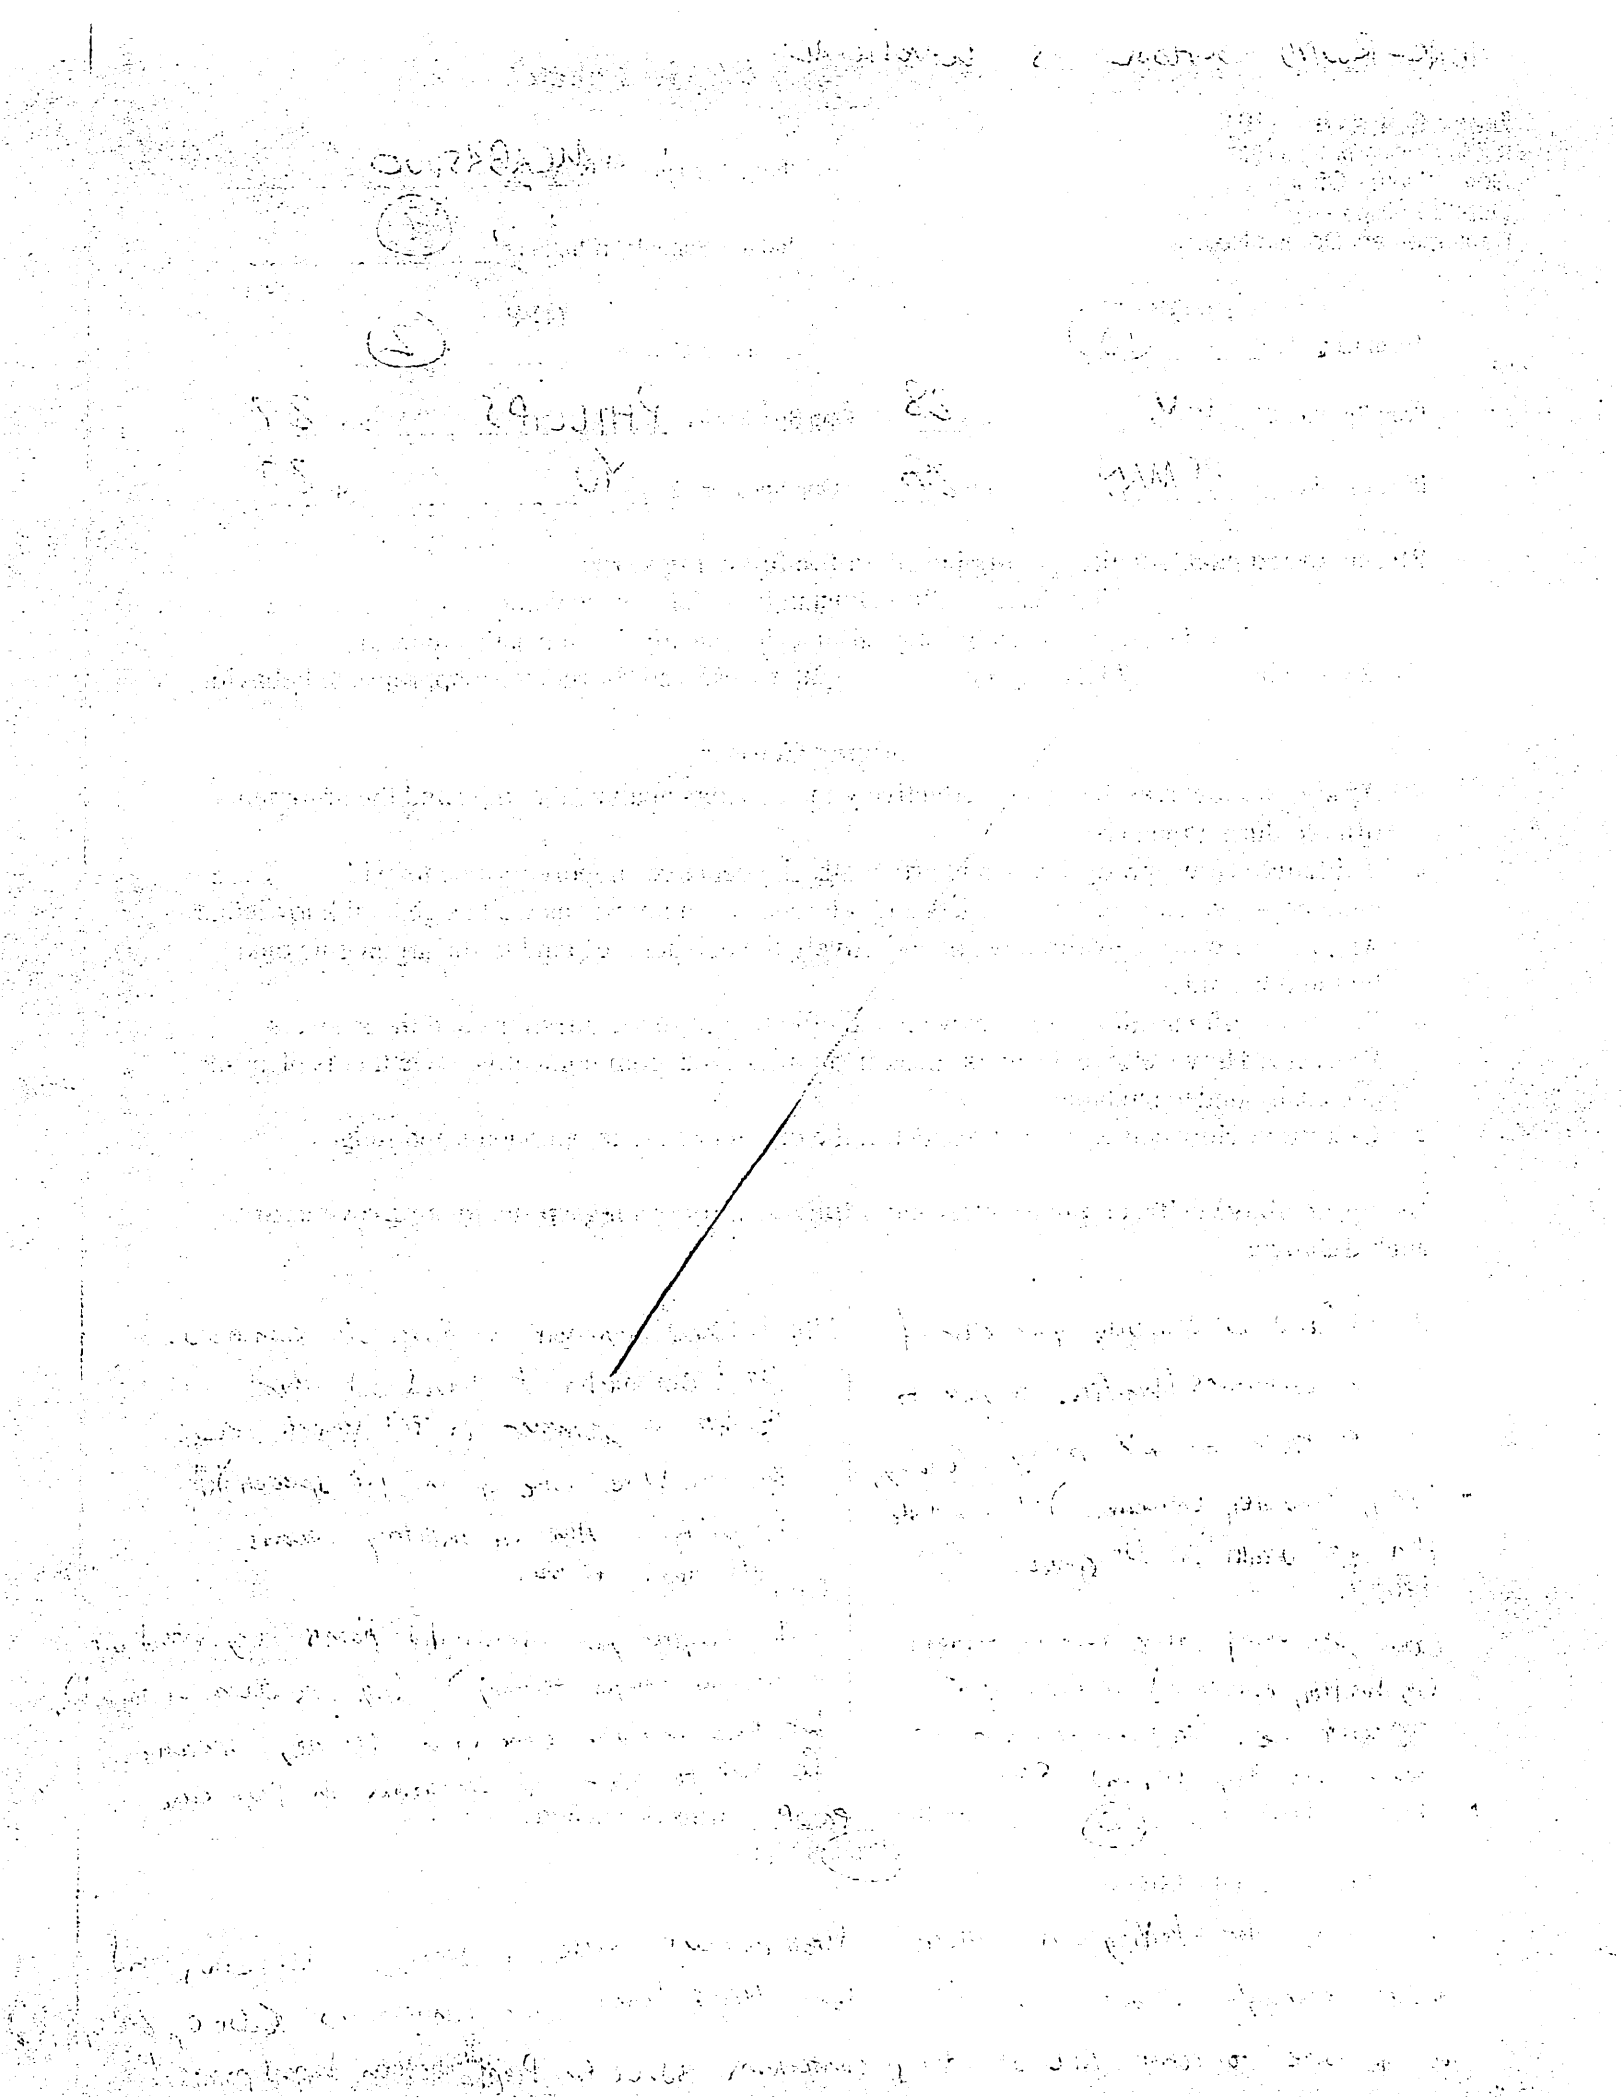
Prop 2:
Good job using your own contentions (eg health, education) to rebut your opponent's case. Good elaboration on your own 3C, 4C, and 5C.

Opp 1: Good argument in favor of summers. Good explanation of travel and other benefits of summer in 3rd speech (though this should've come up in 1st speech). Superiority of American military seems off-topic to me.

Opp 2:
I thought you raised valid points (eg. spread-out curriculum changes teaching), (eg. cuts down on travel), but these should've come up in 1st neg speech. Be sure to rebut all contentions in Prop case

TEAM CODE #: (10) **on the** PROP **wins this debate.**
(Prop or Opp)

REASON FOR DECISION:
Prop wins for having a more fleshed-out case, stronger delivery, and more thorough rebuttals. Advice for Neg: label your contentions (1st C, 2nd C, 3rd C) and be sure to rebut ALL of Aff's contentions. Advice for Prop: mention dropped points!



This house believes that the year-round school schedule is beneficial.

Prop Speaker #1	Parker S. pts 27	Opp Speaker #1	Sesha B. pts 28.5
Prop Speaker #2	Addison S pts 27	Opp Speaker #2	Ria N. pts 29

Please award each speaker points based on the following scale:

30 = Perfect **29** = Outstanding **28** = Very Good
27 = Good (but possibly not good enough to qualify for elimination rounds)
26-25 = Fair **24-20** = Poor **<20** = Reserved for rude or inappropriate behavior

Judging Criteria

- **Analysis:** How reasonably and effectively the debaters analyze the topic and the arguments offered during the debate
- **Evidence:** How appropriately and efficiently the debaters support arguments with evidence—which may include facts and references to authority as well as general knowledge
- **Argumentation:** How directly and effectively the debaters respond to the arguments made by the other side
- **Points of Information:** How relevant and effective were the questions and the answers
- **Delivery:** How well the debaters speak in an organized, communicative style that is pleasant and easily understandable
- **Courtesy:** How courteous and respectful the debaters were to opponents and judges

Using the above criteria, please offer compliments and/or suggestions for improvement to each debater:

Parker: Prop 1: Slowdown, you have time (used only 2.5 minutes). You were organized, but you dropped a contention. Good attack on correlation btwn communism and school uniforms. Great on substance, fair on presentation. SLOW DOWN

Addison: Prop 2:
Good citation to Long Beach evidence, Good attack on correlation btwn communism and clothing restrictions. Missed POO. on new argument introduced on rebuttal.

Sesha
Opp 1: Excellent arguments on creativity and freedom of expression. Mass shootings argument was not supported. The focus was on school uniforms, the contention was if reduced violence among students. Good tone and meter.

Ria
Opp 2: Excellent tone and meter - calm presentation. Good attack on clothing restrictions not being sufficient to stop bullying and loss of creativity being greater concern. Introduced new argument (cost of uniforms) very well. (But could have been challenged.)

TEAM CODE #: 6 **on the** Opp **wins this debate.**
(Prop or Opp)

REASON FOR DECISION:
Very good to excellent tone, meter and calm presentation. Better organized argument and better use of time. Neither side used POI's to good effect - created distraction. Opp. argument as to outside intruders fell flat, but argument as to creativity was compelling. Pos. must slow down and track arguments more closely to contentions. Very good effort on both sides!

This house believes that ~~might~~ makes right.

- explains points clearly. Can explain why love/lost is comparatively better.
- very clear rebuttal speech and defined key points of contentions

Prop 2:

- great delivery & conviction. Uses examples to state points well.
- should spend more time quantifying impacts & linking them to your weighing mechanism.

Opp 1:

- great delivery and voice projection.
- good arguments, but evaluates purely on love good/bad framework.
- could expand the topic to talk about the topic metaphorically instead of just love. (But not weighed in the RFD).

Opp 2:

- very solid fluency & articulation. Few filler words
- good point with weighing impact of heartbreak.

TEAM CODE #: 6 **on the** Prop **wins this debate.**

REASON FOR DECISION:

The majority of this debate evaluated the topic under a framework of love good/bad. The closest thing to the topic's comparative analysis is the 1st advantage which weighs the cost vs benefit of loving one's country. Opp just talks about love alone. Doesn't expand impacts often weigh the resolution does. Gov clearly explains the comparative benefit of loving and losing & had stronger contentions.

Kathan
Prop 1:
Great use of statistics & evidence. You have great points - take your time to make them. Slow down & "own" the room. You had a great command of the evidence - be confident of that.

Prop 2:
Great use of intro to dive into your speach. Good projection and inflection.

Opp 1: Nice job setting up your speach and pre applying evidence. You give a good sense that you are confident in your conclusions. Be careful about being over confident and setting traps for your self.

Opp 2:
Good use of opponent statistics to back your claim! Well organized and structured set of arguments.

TEAM CODE #: 6 **on the** Prop **wins this debate.**
(Prop or Opp)

REASON FOR DECISION: While the Opp used a great statistic to show a divergence of video game sales and youth murders and cited important Supreme Ct opinions, the Prop was more effective in pointing out that the violence statistic can be misleading. Further, the Prop's argument that prohibition labels for young children are a conflicting gov't message to the Supreme Ct decision. Prop argued about impacts to young children while Opp →

focused on 17yr olds and did not dispute that small children need to be protected from violent video games. In fact, they many many times talked about the excessive violence they see on a daily basis in school.

Prop 2: Good rebuttals of Opp 2C and 3C. Rebut Opp 1C, and also bring up the fact that Opp 1 did not rebut Prop 1's contentions. Also clarify where ISIS and GTA fit on the flowchart.

Opp 1: Good contentions in speech 1, and good examples to support them. Good recap in speech 3. Be sure to rebut Prop 1's contentions in 1st speech, and bring up voting issues in 3rd speech

Opp 2: Good rebuttals to Prop 2's points about anger and Grand Theft Auto. Good example of how sports don't cause violence. Be sure to rebut ALL of Prop 1's contentions, and point out which of your own contentions Prop 2 dropped.

TEAM CODE #: (2) **on the** (Prop or Opp) (PROP) **wins this debate.**

REASON FOR DECISION:

My flow chart was pretty empty — both sides presented their cases, but there was very little rebutting in speeches 2 and 3 on either side, and no voting issues raised by either side. Thus, I'm forced to vote based on evidence alone, and Prop had more specific evidence. Prop also did a little more rebutting than Opp.

Prop 1: Good points about brain development & rewards for violence in games. Elaborate more.

Prop 2: very, very brief. Good point that non-violent games build skills

Opp 1: Referred several times to 'countless' studies but could have given more details. Best - Motor skills were about still development, but that isn't limited to violent games.

Opp 2: challenged definition of violence offered by proponent. But argument about other expensive violence, such as news, didn't negate the other side's

TEAM CODE #: 12 **on the** prop **wins this debate.**
(Prop or Opp)

REASON FOR DECISION:

Proponents made several logical arguments, including impact on developing brains and rewarding violence. Opponents rebutted but didn't negate.

Rebuttal: Good rebuttal & refutation of the opposition team's arguments

Prop 2: You had good arguments to strengthen your team's contentions. Have a little more confidence while delivering your speech.

Opp 1: Very good and clear construction of your speech. Great points and arguments to back your contentions.

Rebuttal: Your rebuttal was good, but you could have elaborated both sides arguments & summed up.

Opp 2: You had good arguments, but it would have helped to be more organized and cohesive with the contentions. Also, ~~you~~ it would have been helpful to strengthen your contentions & refutal of opposition.

Using the above criteria, please offer compliments and/or suggestions for improvement to each debater:

Prop 1: Ask for my vote at the end! Good evidence & examples. Death is not the only impact!
Voter issues really weren't voting issues. Will fix 3 weeks, but #2 Good time summary.

Prop 2: Good speech, you built on the argument instead of just repeating.

Opp 1: Good speech, but analysis is weak "safer way to relieve stress" – safer than what? Alcohol example was not really applicable, ~~as~~ aff. team lost an opportunity.

Opp 2: Needed more arguments besides "relieves stress". You essentially agreed that games are sexist by saying the kids won't be swayed because the real world examples to the contrary.

TEAM CODE #: 6 **on the** Prop. **wins this debate.**
(Prop or Opp)

REASON FOR DECISION:
Aff had better evidence to support. Neg. mainly argued that games relieve stress but were unable to counter aggression & sexism arguments. Neg, next time look at their links – they were actually pretty weak, you could have hit them harder.

Using the above criteria, please offer compliments and/or suggestions for improvement to each debater:

Prop 1: Good speech on a very hard topic. Novel approach, but it worked. Rebuttal could have been better organized. Humans are not the SQ" was actually a new argument in rebuttal, but they did not challenge.

Prop 2: Good, smooth speaking style. I like how you turned their arguments against them.

Opp 1: Good job raising topicality, but your def's are just as unfair to aff as theirs are to you. Needed to have attacked their contentions more vigorously.

Opp 2: Very good points, but you need to organize more. You were kind of hard to follow.

TEAM CODE #: 14 **on the** Prop. **wins this debate.**
(Prop or Opp)

REASON FOR DECISION: Great debate on an challenging topic for either side! Aff's definitions and analysis were quite novel, but worked. They defined in the only way that gave them a chance. Neg's topicality argu was good but not sufficient. Could have argued that humans will not die out, or at least that aff didn't show it.
