Please award each speaker points based on the following scale:

30 = Perfect **29** = Outstanding **28** = Very Good
27 = Good (but possibly not good enough to qualify for elimination rounds)
26-25 = Fair **24-20** = Poor **<20** = Reserved for rude or inappropriate behavior

Judging Criteria

Using the above criteria, please offer compliments and/or suggestions for improvement for each debater:

- **CASE ANALYSIS:**
How well did the debater develop a case in response to the resolution?
- **EVIDENCE:**
Although value debating emphasizes logic and persuasion, evidence (quoted material, contemporary or historical examples) should be used to support arguments. How effective was the evidence?
- **ORGANIZATION:**
How well did the debater organize both the constructive and rebuttal speeches?
- **VALUE CLASH:**
How clearly did the debater emphasize the value being supported by his/her side, and how well was that value measured? (Criterion)
- **REFUTATION:**
How thoroughly did the debater refute the arguments of the opposition and rebuild his/her own side?
- **DELIVERY/COURTESY:**
Did each debater speak in communicative style that was pleasant, easily understandable, and civil?

Using the above criteria, please offer compliments and/or suggestions for improvement to each debater:

Note: One observer was present from Neg's team, when asked Aff did not explicitly object.

Affirmative:
Excellent Constructive arguments, however Crossex responses were weak. Was unable to provide evidence for the responses made during crossex.
Good Crossex of Neg.
However rebuttal of Neg was stronger: Neg did provide more information but Aff claimed that info was not provided: ("millions of lifes saved by Nuclear").

Negative Crossex of Aff was good & effectively pinned Aff on multiple points; bordered on intimidating though.
Constructive arguments delivered strongly; However Aff looked to have the upper hand in crossex. "G4 reactors are immune to terrorism" was a strong claim to make, could have provided evidence & explanation in the Constructive speech itself.
Overflowed constructive timeslot due to self-timer failure.
Good Rebuttal & strong finish.

SPEAKER CODE #: 12 **on the** NEG **wins this debate.**
(AFF or NEG)

REASON FOR DECISION
More confident presentation; better Crossex; Aff seemed to lose steam in 2nd half of the debate. Neg rebuttal was very strong & finished well.

Using the above criteria, please offer compliments and/or suggestions for improvement to each debater:

Affirmative: Excellent Constructive Speech & Delivery. Very Good crossex responses. Weak crossex of Neg, some missed opportunities. First Rebuttal was good but seemed less strong than the first Constructive. Key contention was that best way to shift development to renewables was to ban nuclear. Neg said they can coexist; Aff only made future-looking claims.

Negative: weak crossex of Aff did not point out any major holes in Aff's cases. Constructive Speech was delivered strongly. Crossex responses were weak, but Aff's crossex questions were weak too. Rebuttal: the argument of "look for compromises/adjustments to make nuclear better, instead of ban nuclear entirely" looked convincing.

SPEAKER CODE #: 9 **on the** NEG **wins this debate.**
(AFF or NEG)

REASON FOR DECISION This was a tough one to call; Aff was better on speaking, confidence & delivery; However did not have sufficiently convincing arguments or rebuttals to reject Neg. Aff was superior in the first half; Neg had upper hand in 2nd half.

Using the above criteria, please offer compliments and/or suggestions for improvement to each debater:

Affirmative:

- presented a clear case with strong contentions
- was not able to provide clear evidence, but effectively used neg's evidence for his own case
- needs to slowdown, speak more clearly, garbled presentation. Very difficult to understand. Stop interrupting in "X"
- Explained value clash effectively and was able to use Neg's argument against him.
- Strong refutation of neg case and good job rebuilding his own case.

Negative

- presented case clearly and provided good roadmap
- provided evidence that helped the AFF argument and undercut his own.
- Did not clearly defend his value criterion
- strong refutation of the Aff case, but needs to improve rebuilding his own case
- Clear delivery, good articulation, too fast delivery. Slow down and speak more clearly.

SPEAKER CODE #: 11 **on the** AFF **wins this debate.**
(AFF or NEG)

REASON FOR DECISION

The AFF provided a stronger and clearer case and effectively used the neg's evidence to back up his own (AFF) case. The negative did not clearly articulate their case or defend it well. While the Aff wins the round, I found his speaking style to be poor and in need of improvement.

Affirmative:

Strong case development, clear roadmap and contentions. Strong use of evidence. Powerful Aff Cross X. Able to undercut negative's value criterion and key contentions in his Argument. Very good speaker. polished speaker with good presentation. Powerful 1st Aff Contention; Aff X and 2 AR. Very strong use of evidence and refutation of the Neg CASE. Strong defense of his own CASE. Superb performance.

Negative

- Presented a clear case with strong contentions.
- Was not able to address several important critiques offered by the ~~negative~~ Aff.
- Strong speaker, but occassionally got confused or stumbled on his words.
- Inadvertently provided support to the ~~Aff's~~ case and argument.
- Did a good job of trying to emphasize the value clash.
- Used too many terms of Art like "Util" and referred to his "Cards"
- Strong performance overall

SPEAKER CODE #: 5 **on the** Aff **wins this debate.**

REASON FOR DECISION (Below)

– Stronger case Analysis; Stronger use of evidence, Strong defense of case. Effective Attack on the neg's case that was not effectively addressed by the Neg, Aff was Able to show how his value criterion also included the neg's value criterion and how the Aff's case did a better job of even Achieving the Neg's value objective.

Affirmative:

Affirmative brings up good points on possibilities of proliferation, environmental harm and renewable energy options. Efficiency arguments on both sides negates ~~option~~ contention 3. Try not be be boxed in corner on Iran / North Korea examples.

Negative

Utilitarianism argument and efficiency started well. Efficiency should be based on costs, but argument on production effectively countered Aff. There could be more arguments made to societal well-being and environmental concerns to differentiate from Aff.

SPEAKER CODE #: 12 **on the** AFF **wins this debate.**

Using the above criteria, please offer compliments and/or suggestions for improvement to each debater:

Affirmative:
- rapid-fire delivery at beginning hard to follow, as time went on got better flow.
- in cross examining, you interrupted & almost rolled your eyes = almost rude
- refutation was strong - ~~you defined~~ You consistently brought back your value
- evidence was not strong

Negative
- you didn't develop your case for ~~standards~~ government legitimacy fully enough, you let the ~~affirm~~ AFF define what the debate was about.
- paper shuffling looked less organized

Using the above criteria, please offer compliments and/or suggestions for improvement to each debater:

Affirmative:

Clear presentation, succinctly presented, with strong use of facts & authorities well cited to buttress overall argument. Consistent, coherent, confident, courteous without making concessions.

Negative

Clear presentation but not as in command and less nimble when responding to oppment's critique. Also a pronounced tendency to rush through his argument, to speak too quickly and alarmingly capable of being flustered by oppment's rhetorical gambits.

SPEAKER CODE #: 12 **on the** ~~AFF~~ **wins this debate.**
(AFF or NEG)

REASON FOR DECISION

The laurels go to Mr. Habib for a polished & confident presentation that made his case — and defended it with enviable conviction and admirable zeal.

Using the above criteria, please offer compliments and/or suggestions for improvement to each debater:

Affirmative:

Excellent marshalling of apposite arguments & good at rebuttal & deft use of evidence, particularly in rebuttal, marred only by occasional breathlessness as he endeavored to ~~reload~~ pluck arrows to unleash from his quiver.

Negative

Good pushback on opponent's assertions and clear and concise exposition, especially in defense of values exemplified at heart of argument. Still, repetition of talking points neither advanced nor deepened essence of his argument, which wasn't made as tightly as would have been ideal.

SPEAKER CODE #: 11 **on the** AFF **wins this debate.**
(AFF or NEG)

REASON FOR DECISION

Victory goes to Mr. Banisadr for having more concisely constructed and more convincingly made his argument. He was particularly effective in his use of relevant evidence and sources.

Using the above criteria, please offer compliments and/or suggestions for improvement to each debater:

Affirmative:

- Very good job of presenting the ~~value~~ evidence related to the moral and economic costs of Nuclear power.
- Could have had more precise statistics related to loss of life and property costs of plant construction, decomissioning etc.
- Rebuttal focused on meaningless procedural points

Negative

- Unclear statement of economic case.
- Heavy reliance of political stability through Mutually Assured Destruction. A positive case for nuclear weapons. Not a strong direct case for use of N power.
- Lacking in detailed statistics
- Rebuttals not really contending with AFF contentions. Did not directly address them.

SPEAKER CODE #: 9 **on the** AFF **wins this debate.**
